DAY-6

BLOCK-1 : Aptitude :

1.) In how many ways can 3 students selected from 7 students?

Solu:-

Select 3 from 7.

$$^7C_3 = \frac{7 \times 6 \times 5}{3 \times 2 \times 1} = 35 \text{ ways}$$

2.) How many 2-digit numbers can be formed using digits 1, 2, 3, 4 without repetition:

Solu:- First Digit = 4 (1, 2, 3, 4)

Second Digit = 3

$4 \times 3 = 12$ numbers

3.) In how many ways can a captain and vice-captain be chosen from 6 players?

Solu:-

$$^6P_2 = 6 \times 5 = 30$$

$= 30$ ways

4.) How many different arrangements can be made using the letters of the word MATH.

Solu:- MATH - 4 Letters.

$$4! = 4 \times 3 \times 2 \times 1 = 24$$

5) A committee of 4 members is to be formed from 8 people. In how many ways can it be formed?

Soln:-

Select 4 from 8.

$$^8C_4 = \frac{\cancel{8}^{4} \times 7 \times \cancel{6}^{2} \times 5}{4 \times 3 \times 2 \times 1} = 7 \times 10$$

$$= 70$$

BLOCK-2: Verbal Ability:-

Reading Passage:

1.) Why are databases important in modern applications?

Databases helps store, manage and retrieve data efficiently.

2.) What does data consistency mean?

Data consistency means data remains accurate and the same across the system.

3.) Why do companies need well-designed databases?

To ensure good performance, reliability and proper data management.

Grammer Correction:

1.) She do not understand SQL joins.

She does not understand SQL joins.

2.) He were explaining the Database schema.

He was explaining the Database schema.

3.) They has written the program successfully.

They have written the program successfully.

Block - 3 - Communication practice:

Challenge faced while learning code.

The biggest challenge for me was understanding problem-solving logic. I know the basic syntax, but when I saw the coding problems, I didn't know how to start or think step by step. It was difficult because coding requires logical thinking, not just writing code. I often got confused with concepts. To overcome this, I started practicing daily and focused on understanding the logic instead of memorizing the answer. I also watched tutorials and solve the simple problems..
